Skills

Proficient with: Java, Racket, JavaScript, HTML/CSS, React.js, Git, \LaTeX

Familiar with: C, Node.js, PostgreSQL

Projects

Personal Website: Used *React.js* with *HTML/CSS* and *JavaScript* to build my own personal website to display my portfolio.

Brick Breaker: Applied principles of *Object-Oriented Programming* to make a throwback version of Atari Breakout using *Java*.

Number Theory Calculator: Integrated the use of different efficient *algorithms* with programming in *C* to create a calculator that has operations such as mod, gcd, lcm, etc.

Experience

The EPOCH App

Software Developing Intern

Waterloo, ON

Feb. 2019 - Apr. 2019

- Implemented parts of the EPOCH website using *React.js* to improve its UX/UI design to attract users
- Applied source links to the different pages of The EPOCH App to make the website more efficient
- Effectively managed code repositories with *Git* to work with an *agile* software development style

City of Brampton

Seasonal Camp Counselor & Preschool Instructor

Brampton, ON

Mar. 2018 - Aug. 2019

- Supervising over *60 participants* (ranging from 3 to 13 years old) with a team of 3 other counselors to ensure their safety
- Designed activities for participants to develop their *problem solving* and *motor skills* as commented on by numerous parents
- Integrated participants with disabilities with the remainder of the group through activities as evidenced by their *increasing social circles*

TFSS HOSA

Vice-president of Education

Brampton, ON

July 2017 - June 2019

- Lead a team of *14 Training Coordinators* to develop a strategy to teach required content to 120 high school students from which *35 were part of the Top 10* in their respective events
- Organized a completely new educational structure for the TFSS HOSA chapter to improve the *quality of education* for students
